

Technical drawing of a rectangular box. The drawing shows the front and top views. The front view is a rectangle with a width of 800 and a height of 500. The top view is a rectangle with a width of 760 and a depth of 20. The box has a thickness of 10. The drawing includes dashed lines to indicate hidden edges.

A diagram of a cylinder with a vertical line segment inside, representing a cylinder with a central axis.

Technical drawing of a circular structure, likely a cross-section of a pipe or a similar component. The drawing shows a circular profile with a central hole. The outer diameter is 800. The inner diameter is 720. The wall thickness is 40. The drawing includes dimension lines and numerical values for various measurements.

Dimensions shown:

- Outer diameter: 800
- Inner diameter: 720
- Wall thickness: 40
- Radius of the outer circle: 200
- Radius of the inner circle: 10
- Distance from the center to the outer edge: 200
- Distance from the center to the inner edge: 10
- Distance from the center to the outer edge (vertical): 200
- Distance from the center to the inner edge (vertical): 10
- Distance from the center to the outer edge (horizontal): 200
- Distance from the center to the inner edge (horizontal): 10
- Distance from the center to the outer edge (diagonal): 200
- Distance from the center to the inner edge (diagonal): 10

Technical drawing of a rectangular fountain basin. The drawing shows a top-down view of the basin with a central vertical pipe. Dimensions are given in millimeters (mm). The outer dimensions are 800 mm by 440 mm. The inner dimensions are 680 mm by 390 mm. The basin has a 20 mm thick wall and a 60 mm high rim. The central pipe has a diameter of 40 mm. The drawing is labeled with '60', '680', '20', '40', '50', '390', '440', '20', '60', '760', '800'.
